Hello, my name is Katherine Buckeridge and I am a speech and language therapist. I am doing a research project for my course at university.

I am interested in learning about how you talk to and listen to other people following your brain injury.

There is not much information on what everyday life is like for young people with a brain injury, so I would like to meet you to chat about this.

I plan to meet with a few other young people who have a brain injury. I will meet with each person on a different day.

It is up to you whether you take part in the research project. You can say ‘yes’ or ‘no’.

If you do take part, the meeting with you will be no longer than one hour and you can stop at any time.

I would change your name to a different one when I write things down from the meeting so that no-one will know who has said them.

If you do want to take part, please ask your parent or guardian to read the information on their sheet with you.
