

## Wheelchair and Seating Service

### Preferred Models of Wheelchairs and Seating

This lists the currently preferred models in each category. It does not guarantee supply. The wheelchair service uses these models first where they meet the clinical need. It may select alternatives if clinical reasoning is presented, specifying why the preferred model will not reasonably meet the person's needs. This may involve anticipation of the probable progression of a condition.

Buggies		
Type	Model	Weight limit
Basic folding	<ul style="list-style-type: none"> <li>Maclaren Major Elite</li> </ul>	<50kg
Reclining folding buggy	<ul style="list-style-type: none"> <li>Tendercare Swifty</li> </ul>	<35kg
