

Weekly Message

Friday 15 March 2019

Every day we provide excellent care at the heart of the community but we are always looking for ways to improve.

Our teams support a population of 1.3 million people – looking after them in care homes, schools, clinics, in-patient units and often in people’s homes.

Our values underpin everything we do. We are compassionate, we work together to achieve our ambitions and deliver excellence.

I wanted to share a lovely example of how our teams come together, demonstrate our values and provide excellent care. It’s something that I know has made a difference to our patients.

Lots of our work is to help people leave hospital as quickly as possible or to keep them healthy and at home – avoiding the need to be admitted in the first place.

But sometimes the best place for people is in hospital. That’s why we have invested in supporting people’s physical and emotional wellbeing while they stay with us in our community in-patient units.

I’d like to share more about the work of our staff and the musical therapists from Wishing Well and watch a heart-warming video about the impact they’re having in Crawley and beyond.

Thank you to all our colleagues for your continued hard work and dedication.

Best wishes,

Siobhan Melia
Chief Executive
Sussex Community NHS Foundation Trust

Music enhancing people’s wellbeing at in-patient units
